JOSIAH TURNER, Jr., EDITOR.

THURSDAY, NOVEMBER 4, 1869.

THE GOVERNOR AND THE CARPET-BAGGERS.

We hear it said every day, frequently by some of the most "knowing ones" of the Republican party, that the Governor has resolved to get rid of those infamous pests, the "carpet-baggers," that he intends to kick them off, right away. We tell the people this is all a show and pretense, made for the purpose of bolstering up the Governor in the confidence of the rank and file of the native Radicals. He hears the loud complaints of the native, black and white, about the intolerable insolence and thievery of "carpet baggers," and he is obliged to throw a "tub to the whale," in the shape of secret denunciation of his bosom and confidential friends, or it is done for him, by native party adherents, no doubt with his approval and at his suggestion. But, we repeat, this is all pretense; he will not break with them; he don't intend to break with them; he *can't* break with them. Let him attempt it, if he dares, and some of these "carpet-baggers," "will a tale unfold" that will make even him blush and hide his face in shame, unlikely as such a thing on his part may be supposed to be. He dare not break with them.

It was said about the streets here, for several days that the Governor was furiously indignant at the election of Gen. Littlefield of New York, to the Presidency of the Western Division of the Western North Carolina Railroad Company, and that he would, over his own hand, publicly denounce and disapprove of such election. O, what contemptible dissembling and hypocrisy! This was the merest pretense, made to pacify the white Radicals in the West. Why, *he appointed* the State Proxy who elected Littlefield! And, besides, let him dare to denounce and repudiate Littlefield! The General knows a thing or two, if he is "a carpet-bagger." Governor do you understand? Ah! that "Ring!" You are fast! You may want to get rid of "carpet bag gers," but you can't. Yes, you understand! You will *mark well* your conduct toward "carpet baggers!" Governor, this hurts you; we know it; you feel it, and yet you are *afraid* to tell any body so. It *grinds* you. Yes, you are bound to "carpet baggers" by a chain stronger than steel, and you know it. You would rejoice to find some one able to deliver you from the body of this death; but the case is hopeless. Like the 'old man of the woods," they will ride you, and there is no shaking them off.—They are as inseparably connected to you as Chang to Eng; separation would be death; and this you know without the advice of any political physician, however you, or your friends for you, may talk of "kicking off the carpet baggers."

THAT LEASE.

We don't hear of a single Stockholder in Orange, who approves of the lease of the North Carolina Railroad. This is as it should be. The announcement of six per cent, for twenty years upon stock that had paid but one or two dividends in twenty years, was well calculated to take with needy Stockholders. If the Road is to be leased, let us make all we can of it. The Danville Road would no doubt give as much for the Road from Charlotte to Greensboro, as the Raleigh and Gaston Road have paid for the whole line. The Wilmington and Weldon Road would give $340,000 for the Road from Greensboro to Goldsboro. The Raleigh and Gaston Road would, no doubt, add $100,000 per annum to its bid, rather than fail to get it.

Let the Stockholders remember that Thursday the 11th of November is the day for the meeting of the Stockholders, to ratify or reject the lease, let them remember, it was secretly leased, it was not known to a dozen men outside of the Directors, and the Ring who leased it. The Stockholders of neither Road knew it until the lease was consummated. The people of the State, to whom three-fourths of the Road belongs, never knew it. The President of the League knew it, and General Laflin, it is thought, was removed as State proxy by the Governor, with a view to the lease. If this was not so, why was General Laflin removed?

Let the Stockholders remember they get *no six per cent*, until the debt of the Company is paid off. Let them remember that the persons who leased, tried to buy of the Legislature for $3,000,000 payable in Bonds.

Only eighteen members of the Legislature were willing to sell. The question of the sale of the Road is settled, and Dr. Hawkins is aware of it, and hence his desire to lease.

If General Littlefield could secure $100,000 as a reward for corruptly passing a bill appropriating $2,000,000 to the Chatham Road, how much has been paid or promised, to put through this lease for a sum $2,000,000 less than others would be willing to give?

A female speaker, Madame Pare, who recently addressed several public meetings in Paris, has received a warning from the government on account of her vehement language.

JACOB SLAUGHTER.

Last Tuesday, at Person Court, for the first time in life, Jacob Slaughter was "interviewed" on the condition of the Roxboro' Bank. Jacob produced four several receipts from Judge Reade, President, and Hon. Charles Winstead, Cashier, for the payment of money as a Stockholder, amounting, in all, to some $500. The interest imparted to the "interviewing" arose entirely from the appearance and play of countenance of the financier. Jacob said he was in his 56th year. He had paid some $500, as a Stockholder, in the Rockboro' Bank; $116 of the money was in silver, a part of which he made when a boy by selling rabbit skins at 25 cents per dozen; he hated to lose that money, for he had owned and kept it so long. There was now another call upon him for money to pay off the indebtedness of the Bank; but he intended to take the benefit of the homestead on the call; he had paid his last dollar, in *that* concern. "At the last meeting of the Stockholders," said Jacob, "I was breaking my mind to them about the management of the Bank, when Judge Reade said I must not talk so, it was a reflection on the officers of the Bank. I told him I could not help it; I had put gold and silver in the Bank and not Confederate money, and I could not understand why it was, that instead of getting back the money I had paid in, I was called on to pay more greenbacks to support the gold and silver I had paid in."

Jacob again repeated that he was 56 years old, and had never associated with *gentlemen* until he was invited by them to take stock in the Roxboro' Bank. He would take no more stock in Banks, unless he was both President and Cashier of the institution, and as for *gentlemen*? he was done with them, too, now, henceforth and forever.

The National Convention at St. Louis, is pronounced to have been a complete success. It comprised some one hundred delegates, regularly appointed by the Governors of eleven States, Illinois, Iowa, Nebraska, Oregon, Nevada, Missouri, Kansas, Arkansas, Tennessee, Mississippi, and Louisiana, and the Territories of Colorado, Montana, New Mexico, and Utah—besides a number of delegates otherwise appointed from other States. The Convention was unanimous in favor of the removal of the Capital from Washington to the West.

THE NEW SENATOR FROM MAINE.—Hon. Lot M. Morrill, just appointed United States Senator from Maine, to fill the vacancy occasioned by the death of Hon. William Pitt Fessenden, whose term of service would have expired March 3, 1871, is well known. This will be Mr. Morrill's third service as United States Senator, he having been elected to fill the vacancy caused by the election of Hannibal Hamlin to the Vice Presidency in 1861, and re-elected in 1863. His last term expired on March 3d of the present year.

We find the following in the New Haven, (Conn.) *Register*:

Col. R. P. Crump (one of the bravest and best citizens of Texas) died recently, from disease contracted in a filthy prison, where he was thrown by the little military despot who manages the bayonets in that section—without proper food or the decent comforts of life, and denied the privilege of the *habeas corpus*. After nine months of misery, he was tried by a military court and "*honorably acquitted*"—but so worn down by physical and mental suffering as to live but a few days after establishing his innocence. What special punishment can Providence have in reserve for such tyrants?

The latest information in regard to the movements of Sam. Hildebrand, of Missouri, is that he came into Farmington about a week or two since, where his family has been residing, and moved them away. He left in the direction of Belmont, with the intention, as his friends suppose, of leaving the State and going to Mississippi. It is stated that some of the sheriff's special deputies were cognizant of Hildebrand's movements, but they did not think it advisable to interfere.

THE SUEZ CANAL.

The crowds who are now flocking to Egypt threaten, according to some accounts to create a famine in that ancient granary of the world. Three dollars for a pound of beefsteak, and wretched beefsteak at that, is now being paid at Cairo. This is but the beginning of the affair. When the other monarchs arrive, and when the crowd finds itself in the desert, it will certainly be well to belong to the company of the Vicaroy. Care will be taken of all the Vicaroy's invited guests; but it will be well for those who set out on their own hook to consider that where nothing can be bought money will be of little avail.

In spite, however, of every drawback, the opening of the canal promises to be a grand affair—much grander, in fact, than the other affair which is to take place in Rome shortly afterwards. In its prospective results the canal must be regarded as the most wondrous work of our time. It will completely revolutionize the currents of trade. The Mediterranean will again become the great sea of commerce. Trade will revert to its old channels and will revive some of its ancient centres. Egypt will acquire an importance which will necessarily place her under the special protection of all the great commercial nations of the world. She cannot long remain under even the nominal sovereignty of the Turk. It will not be longer possible even for the United States to be indifferent to her interests in that direction.—*N. Y. Herald.*

Professor Thorald Rogers, of Oxford having made a tour of Ireland to judge for himself of the relationship that exists between landlords and tenants, has published a letter avowing his belief that the demands of the Irish people must be granted to them, and that all half-way measures, even including Mr. Bright's scheme in that category, will be found useless.

Koopmanschaap has returned to San Francisco. He will forward a hundred Chinamen next week to work on the Memphis and El Paso Railroad. He says there are 3,000 Chinamen in the State out of employment, and that more are returning to China at present than are coming here, owing to the approaching national holiday in the empire.

The Concord *Patriot* says the rare atmospheric display called the mirage, was seen in Dunbarton, New Hampshire, a few days ago. An old house with its surroundings, which stands many feet below the surface of a hill, about one and a half miles distant, and usually entirely hidden from the place of observation, was distinctly seen by several persons, apparently on a hill much higher than the intervening one, remaining some time, then gradually disappearing behind the hill again.

AN HEIRESS KIDNAPPED.—A queer case of kidnapping has just transpired, and in some of its aspects it is highly romantic.—Chief of Police Cain several days ago received a telegram from Dr. Cessan, residing near Grand Gulf, Mississippi, to the effect that his child, a little girl ten years of age, had been kidnapped by her uncle, John Cessan, and that she was probably at that time in New Orleans. Several detectives undertook the search, but their efforts proved unavailing. The only clue given in the despatch was that the child, while in the immediate vicinity of her father's house, had been dressed in boy's clothing, and would in all probability be passed off as her uncle's son. On Sunday the case was turned over to Special Officer Cunningham, and, after a lengthened search he discovered they had been here, but left a day or two before for St. Augustine, Florida.—Telegrams were sent to St. Augustine, St. Marks, Appalachicola, and Pensacola, and on Monday the two were arrested in the last named place by Marshal McCloskey.—As the kidnapped child has a great deal of property in her own right, it is supposed her grandmother, residing in Florida, employed Dr. Cessan's brother to do the kidnapping.

THE PAY OF ARMY OFFICERS AT WASHINGTON.—A correspondent of the New York *Herald*, writing from Washington, says:

"There are on duty in Washington, chiefly in the bureaus of the War Department, one general, ten brigadier generals, eighteen colonels, eight lieutenant colonels, twenty-five majors, seventeen captains, ten first lieutenants, nine second lieutenants and ten acting assistant surgeons, making a total of one hundred and eight officers.

"With a few exceptions the regular officers draw cavalry pay and allowances, and commutation of quarters and fuel at the rate of $18 per room and $10 per ton.—The allowance for rooms has been doubled since the war, and officers can now draw or commute coal instead of wood, 1 600 pounds of anthracite coal being considered equivalent to a cord of merchantable hard wood. Acting assistant surgeons are paid, from $100, to $125 per month. The pay rolls foot up to $30,800 per month.

"The General-in-Chief receives $1,333 per month of thirty days for pay, &c., $300 for quarters and fuel, and $50 for forage, making an annual income of $20 311 50.

"The heads of the staff departments are brigadier generals. The pay of staff officers of that grade is $3 6 50 per month of thirty days, but the present incumbents having been from seven to forty-three years in the service, draw from $9 to $72 per month for longevity rations.

"During the summer months, from May 1 to August 31, the commutation of fuel, at $10 per ton, is $98 73, and in September $101 19, which makes the annual pay of heads of staff departments $5 348 67, without the longevity ration. In addition to this they, as well as all commissioned officers of the army, can purchase subsistence stores from the government at cost price."

WASTED MONEY.

It is demonstrated that the people of the United States, even with all its debt and all the cost of war, are taxed more than any other people upon the face of the globe. One hundred millions ought to pay all current expenses; and $130,000,000 will pay the interest on the debt. If we follow Mr. McCulloch's plan, and allow $50,000,000 to cancel that much debt, there will be but $280,000 000 of taxes collected; yet we are taxed in currency equal to $430,000,000. Add this to State and local taxation, $250,000,000 and we pay as a people $700,000,000. Of this $180,000,000 are paid in gold, and nearly a third of $700,000,000 is collected by the internal revenue. The tax on imports is $412,000,000; and of this $76,500,000 are luxuries. The bulk is upon necessaries. On salt the tariff is from 100 to near 170 per cent., according to Mr. Wells, the highest average on any article of primal necessity. Then, too, the imports this year in American vessels was $121,165,636, while in foreign vessels it was $290,730,848. And this is called Government! American shipping ruined; salt over 100 per cent.; iron ditto; and tens of millions of Government Bonds held abroad and at home, untaxed.—*N. Y. Express.*

The Pittsburg *Post*, the leading Democratic paper of Western Pennsylvania calls upon ex Governor Packer and the Democratic State Central Committee to "proceed at once, according to the laws provided in such cases, to contest the late elections" in that State. The *Post* says that Governor Geary's election is undoubtedly the result of fraud.

LETTER OF THE WOMEN OF THE SOUTH TO MR. PEABODY.

MR. PEABODY: *Dear Sir*:—The earnest philanthropy of your character induces us to prefer making the following representations to you personally, instead of conveying them to you through the distinguished gentlemen whom you have appointed agents of your beneficence.

Although you have intrusted the expenditure of this sum to these trustees, so high is your character for prudence and judgment, that we are certain any advice from you as to its disposal will be all powerful with them.

The present state of that section of your native country in which we live, is in every respect distressing; but there is one circumstance which deserves especially to employ the kindly brain and hand of the philanthropist: we refer to the condition of the Women of the South. Until the late war we had never been compelled, owing to the form of society under which we were born and reared, to labor for our own support.—Affluence was the rule, poverty the exception. During the war, when it became necessary for us to exert ourselves in the most arduous and unaccustomed duties, our conduct proved that we lacked neither the will nor the ability to labor perseveringly, and to bear with fortitude every burden which it pleased God to lay upon us. The issue of the war has deprived thousands of us of our only means of support. Harder to bear than this, its terrible vicissitudes of slaughter and disease have taken away from many of us the strong arms and brave hearts of those who would have counted it all joy to labor for us.

For instance: In the State where this is written, where the voting population before the war was but seventy five thousand, official records show that more than thirty thousand died, on battle-fields, in hospitals, and in their homes from wounds or sickness, during those years of anguish.—Probably every one of these had at least one woman dependent upon him for support. In too many cases the happiness of more than one was involved in the life of the soldier who fell; but certainly, on an average, each was the protector of at least one woman: a mother, wife, sister, daughter, or betrothed, whose life was left desolate by his death.

From this statement you can form some idea of the vast number of women in the South who have been suddenly thrown upon their own resources.

We do not complain of this; we yield to the will of Him 'who doeth all things well" and 'who doth not willingly afflict the children of men.' We do not ask for any help except the opportunity to help ourselves. Owing to the former condition of society in the South, there are only two occupations open to us—TEACHING and SEWING. For the former pursuit many of us are unfit either from temperament or from not having been educated expressly for this occupation. The latter employment is so sedentary that many of us have not strength and health to enable us to pursue it. However, in spite of these hindrances, so many of us have been compelled to engage in these pursuits, that the remuneration which they afford has necessarily become, as a general rule, pitifully small, owing to the great competition in both.

We believe that a portion of your noble gift could in no possible way be so useful to our impoverished section, as by employing it in the establishment of an Institution, whose whole design should be to open new fields of labor to the women of the South, and to fit them to cultivate these with ability. Such an institution, when once established, could easily be made, in great part, self-supporting by two measures. First, by allowing all household work to be performed by the inmates. Second, by letting the employments which are taught be of such a nature that many of them shall be remunerative to the school even while the pupils are learning them.

These rules would also have the desirable effect of making the fees for attendance very small.

The employments which could and should be taught in such a place, are numberless. We will enumerate a few to give you a more distinct idea of what we propose.

PRINTING, for example, would be very suitable, and might be made quite profitable by undertaking to do job work for persons desirous of aiding in this manner the plan of the Institution.

WOOD ENGRAVING is also an occupation for which women are peculiarly well-fitted.

The lighter sorts of WOOD CARVING required for the more delicate ornamental work of the cabinet-maker, could be taught with advantage.

There is a great deal of rough PAINTING done, such as that on signs, window-shades, and theatrical scenery, which requires little or no natural talent, and could be learned by any one.

If any of those who were learning Wood-Carving or Scene Painting happened to be gifted with real artistic talent, it would manifest itself in these pursuits. Such pupils could then be separated from the rest, and thoroughly trained as painters and sculptors.

GARDENING, BOOK-KEEPING, TELEGRAPH-OPERATING, and many other suitable occupations will readily suggest themselves to your mind.

If you decide to advise that a portion of your gift be employed for this purpose, it would be well to promise that the Institution should be situated in that one of the Southern States which could pledge itself to contribute most largely to its endowment, either by gifts of money or of public lands. Then it should be placed in that COUNTY of the chosen State which could give the largest additional amount.

Even if *very few* could be trained in this school, great good would be done; for each pupil returning to her native town, would convey to its inhabitants the germs of entirely new ideas. She would carry to many fainting hearts the good tidings that their lot is not so hopeless as it seems—that they may yet be saved both from the scanty support of ill-paid and exhausting labor, and from the humiliation of eating the bitter bread of dependence.

In conclusion we would express to you in our names and in those of our fathers, brothers, husbands, and sons, our gratitude to you for what you have already done for your impoverished fellow-countrymen of the South.

May you receive your reward on that day when you shall meet for the first time the multitudes of those whom you have blessed, and shall hear from Sacred Lips the joyful words: "Inasmuch as you have done it unto the least of these, you have done it unto me."

CITY AND STATE ITEMS.

THURSDAY, NOVEMBER 4, 1869.

Dr. P. Babcock, can be found at his former place of business over L. E. Heartt's Store till further notice.

PUTTING IT ON.—The Tinners commenced putting the roof on the new Market House yesterday, and the part finished looks as *shiny* as a new nickel.

Speaking of the Market House reminds us that a friend has called our attention to a fact connected with its construction in a point that, perhaps, requires looking into; namely, that the ends of the joints project into the wall, immediately between two flues. It is said the building over against the Market House, belonging to the Messrs. Tucker, and occupied by Mr. Parker as a grocery store, was constructed in the same way, and that the building took fire from it on one occasion and came near being consumed; timely discovery only preventing. We mention the matter as much for general information and precaution on the subject, to those who may contemplate building, as to call attention to this particular. Where there is only a single brick between a flue and the timbers of a building, it strikes us as being a little dangerous.

MASONIC INSTRUCTION.—We learn that Past Grand Master, R. W. Best, who was appointed Custodian of the ritualistic work, at the last Grand Lodge, has organized a school of instruction in this city.

This is a good movement, and will enable every Mason in the city to "brighten up." It is a lamentable fact that we have so few bright Masons among us; we urge all who desire to perfect themselves to enter this school at once.

Next meeting at Masonic Hall, this Thursday evening, at 7 o'clock.

THE WIDOWS' AND ORPHANS' BENEFIT LIFE Insurance Company of New York, represented in this State by Messrs Baker and Doyal as travelling Agents, and by Messrs Martin and Finch as general Agents for the State, the advertisement of which appears in another column, bids fair to become a popular competitor for public favor in the life insurance business, as it offers very attractive terms to insurers. Mr. Finch who is well known to our citizens' is now here and will take pleasure in giving any information in regard to the company, its reliability, terms &c. Read the advertisement.

THE MELISH AND THE KU KLUX.—There was nothing definite in regard to the Ku Klux or the movements of the heavy "detail," yesterday. A gentleman from the neighborhood of Green Level, a member of the Republican party, was in the city yesterday, who stated publicly on the streets, in the presence of Republicans and others, that the statement of the *Sentinel* yesterday morning, in regard to the conduct of the negro militia in that neighborhood, was true, only it was not given half as bad as it really was.

There were secret and mysterious movements about the Capitol yesterday, in which the Governor, the Adjutant General, Capt. Bosher, Sheriff Lee, and the redoubtable Kwyatkowski, participated. So it is said. It is rumored there —are messengers in the city from the neighborhood of the militia. We could gain no definite information in regard to the movements on the tapis.

NO EASTERN EXCHANGES.—The Eastern mail, last night, brought us no exchanges from that direction, except the Wilmington *Journal*. The *Star* twinkled not in our hemisphere; the *Journal of Commerce* failed in its entry, the *Times* was behind the times, and the Angel of Goldsboro' seems to have folded its wings, or to have soared past without stopping. By the way, since we come to think of it, the latter has increased his proportions to such an extent that it only makes a trip every other day, and yesterday was not its day, so we excuse it.

But what's the matter? We don't want to intimate that the Route Agents are at fault; and it is hard to believe that all the offices got behind in their mailing so simultaneously; we don't know what to think, so we turn to the *Journal* for consolation, and will squeeze an item or two out of that.

It informs us that the Fair Grounds for the Cape Fear Exhibition are nearly ready, and will be finished in good time for the opening on the 15th inst.

The *Journal* is sanguine in regard to the pacific intentions of the Governor, and anticipates a quiet settlement of the present disturbed condition of things. We hope this may be so, but it didn't look much like it yesterday and last night, and the tone of yesterday's *Standard*, the Governor's organ, don't promise much in that direction.

LARGE CORN.—Mr. James H. Harris has left at our office an ear of corn measuring thirteen inches in length, containing sixteen rows in which are a little over a thousand grains. It is a sample of his crop produced on his farm a few miles from the city, on which he calculates to gather between five hundred and seven hundred bushels.

THE FAYETTEVILLE AND WESTERN R. R. A correspondent of the "Old North State" in a lengthy communication to that paper, urges upon the people of the Salisbury section, especially the citizens of Davie, the importance of bestirring themselves to procure the Fayetteville and Western Railroad to terminate on the N. C. Railroad at Salisbury instead of Greensboro. The SENTINEL is requested to copy the article, with which we would gladly comply but for the present crowded state of our columns.

FIRE.—At half past ten o'clock, last night, the bells rang out an alarm of fire which was ascertained to have originated in the Store of Mr. Jordan Womble, on Hargett Street. The flames had gained such headway when the fire was discovered as to render all hope of saving the store or the goods futile.

The two Engine Companies, the Hook and Ladder Company and the Bucket Company, were promptly at the spot, and by their united efforts succeeded, against the expectations of the most sanguinous preventing the spread of the flames to the adjoining stores.

There was much damage to the goods in the adjoining houses from being removed in the usual hurry of such occasions—Freeman, Taylor, Wm. Upchurch, Lassiter & Royster and Kline, all removed their goods, and all suffered considerable loss.

The origin of the fire is not known, but it is supposed to have been the work of an incendiary, as no fire had been used in the store in the latter part of the day.

We learn that Mr. Womble was not insured.

The citizens white and colored, rendered efficient aid in checking the fire and in removing the goods, while the vigilance of the police prevented to a great extent the usual concomitant of fires, the removal of the goods to too great a distance.

The engine of the colored fire company unfortunately got the suction pipe broken soon after it got into play, which rendered it useless, but the members pitched in to the assistance of the other companies. The little engine of the Merchants' Independent performed admirably.

The Hook and Ladders and the buckets, by their efficient efforts, very plainly showed the great utility of such organizations on such occasions.

DR. SKINNER.—The breath of slander has been for several weeks floating ague rumors reflecting on the deportment of Dr. T. E. Skinner, of Nashville Tenn.

Among our State papers, the SENTINEL first copied the scandal. We alured the local editor that the statements were false and requested a correction which has not been made. We now assure T. Turner, that in addition to the following documents, we have ample testimony that unfortunate circumstances now worry of public attention, have seriously injured an innocent man.—*Biblical Recorder*

The paragraph copied into the SENTINEL did not mention the name of Dr. Skinner, and when selected as an item of news, no one in the office dreamed that Dr. Skinner was the minister alluded to. It was afterwards stated that he was the man, and the editor of the *Recorder* request the correction, as stated in the above paragraph, but, on reflection we thought would tend more to the spread of the report to correct it, by alluding to Dr. Skiner, by name, than it would to let it pass without further notice. No one could possibly know, from the paragraph we cited, that Dr. Skinner was reflected on—just knowledge came from some other sour.

For the Sentinel.

MR. TURNER:—The accompanying Lament was picked up at the foot of the old poplar in the University grounds, and on inspection was presumed I have been written by the Hamadryad who inhabits that venerable tree. As you're known to be curious in such matters the MS. is forwarded to the SENTINEL.

Oh what stupidity!
And old North State frighty
Is it that thou refuses
What Gov. Holden chooses
To give us as our gospels *suf.*
Of Latin, Greek, and allsuch stuff!
The dose is surely small
That pay no pay at all,
And yet no man will take it,
Or can be made to swallow it.

Consider Mr. Fool,
The Head of this Freeschool,
Whose abilities and learning
It is plain to all discerning,
Are such as never yet
In such a chair were met.
There no man suffered sore
For his country in the war.
"Friends and pupils all consenting
To let the college sink
While they fought and bled and died,
Left him, (safe and sound,) lamenting.
Such sufferings deserve mention,
If not indeed a pension,
And to take a Tax-Assessorship,
In exchange for his professorship,
Seemed the best way of revealing
His strong Confederate feeling.

And yet this great emotion
In the service of the nation,
Could not slacken his devotion
To the cause of education.
Such a thing as resignation
Entered not his cabination;
For two strings to his bow
Are we very well kno,
Is the best way saving one's rations.
So in and out
He slipt about
As party claims dictated.
Trusting that he
Would some day
In honor reinstated.

Now Fortune's wheel revolving,
Old ties and linkbs dissolving,
The Muses had recorded,
That when all thgood and great,
Who so long had served the state,
Were compelled by party hate
To surrender to their fate,
And leave the halls they long had guarded,
Then was Mr. Bi ckstate,
And his service rewarded.
With no symptoms of dubiety,
Or sense of impriety,
He claims the vacant chairs,
With no misgiving fears,
Assumes the di,
Affects to smile
And seems to shake the spheres.

It surely is a shame,
And we're very much to blame
That we lose such opportunity
To polish our community;
For there ne'r was a time
Offered poor old North Carolina,
To send her sons to College
To get a little knowledge
Here's every variety
Of the very latest society,
In the savans and philosophers
Who compose our College officers—
Some of the faculty can spell
Very well.
Some wear spectacles
Some retired
Every lecturer here be suited
Except who prejudice is very deeply rooted.

Why don't we come to College
And get a little knowledge,
While all the sciences,
Means and appliances,
Are lying round loose,
Rusting only for want of use.
No misplaced economy
Need deter us from Astronomy,
All the Olden,
Taught in the colleges,
Ancient Lin, Modern Greek
Are going begging, so to speak.
And even eternity
Is in a state of modesty,
While Geology sits idle with her hammer;
And yet no scholar
Will even pay a dollar,
For Geography,
Orthography,
And Bingham's Latin Grammar.

Wednesday Midnight Dispatches.

WASHINGTON.

WASHINGTON, Nov. 3.—Boutwell has employed counsel to protect the interest of the government in the matter of prize money claimed by Farragut's fleet for the capture of New Orleans. The case involves a million of dollars. The suit is pending in the District Court, which grants the government thirty days to prepare for the defense.

Revenue to-day $750,000.

Ex-Gov. Wells, of Virginia, interviewed the President to-day.

The iron-clad, Miantomahis ordered to the West Indian Squadron.

The Government receipts of gold at Boston is short of the disbursements, Boutwell therefore declines selling gold there.

The delegation appointed by the Louisville Commercial Convention called on the President to-day. The Chairman, Gen. Walbridge in an address to the President, gave a synopsis of the labors, views, and sentiments of the members of the Convention, assembled from all sections of the country, and congratulated the President on the success of his administration.

The President replied in a like congratulatory strain, and every thing passed most harmoniously and pleasantly.

The spokesman of the Committee had alluded to the President's second term, in answer to which, he said he felt now very much as he did at West Point in his cadet days, when he consented every month with eagerness to get out of his position. He had not sought his present position, as every body knew.

Hon. H. W. Hilliard of Ga., was glad to have an opportunity of saying to the President he concurred in the cordial appreciation which all parties must give to the sentiments just expressed by him.

The President laughingly asked Col Duncan of Kentucky what the people of his State thought of his administration, and whether there was any hope of Kentucky ever turning from her present politics.

Col Duncan assured him Kentuckians, with rare exceptions fully appreciated the President's honest intentions to do what he could for the good of the country, and much more of a congratulatory character, winding up by saying; that "even the fifteenth amendment would make very little difference, as the colored vote would be divided and go very little towards breaking down the 90,000 democratic majority of the State. After an informal and pleasant conversation of half an hour the delegates withdrew.

In New Jersey the Democrats gain one Senator and two Assemblymen.

In Kansas the Democrats carried Leavenworth and Atchison.

Massachusetts, House, seventy-five Prohibitionists; one hundred and twenty-three Licensists.

VIRGINIA.

RICHMOND, Nov. 3.—The great success of an interest manifested by the farmers in the State Fair, is regarded here as the best sign of returning prosperity of the State. There were quite 25,000 people at the Grounds, nearly all Virginia farmers or citizens of other states. To-morrow is the city people's day. At noon the blooded stock was paraded and over two hundred pure blooded horses were in line. A greater show was never made in Virginia before. Hoosier, a Philadelphia horse won the $500 prize given by the Society for the fastest trotting. The display of Agricultural implements is better than ever had here.

Commissioner Capron of the U. S. Agricultural Bureau arrived to-day.

WEST VIRGINIA.

WHEELING, Nov. 3.—Thirty-nine counties heard from in the lower House Republicans 9, Democrats 21,; eleven counties unheard from.

NEW JERSEY.

NEW JERSEY, Nov. 3.—Senate—Democrats 15, Republicans 6; House—Democrats 33, Republicans 4. A Democratic gain of 4 in joint ballot.

NEW YORK.

NEW YORK, Nov. 3.—Latest returns indicate a Democratic majority of 10,000. The Senate stands, Democrats 18, Republicans 15; Democratic gain of 2. House very close, according to present returns the Republicans have 66, Democrats 62, with several districts doubtful.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug. 9-h, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
SPENCERIAN SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October next. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public schools with Monteith & McNally's Series without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by
ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

From Dr. WM. D. HARRELL, Prin. High School Snow Hill, N. C.:
SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St Mary's School, Raleigh, N. C.
RALEIGH, N. C.

I have examined the Geographies Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALDERT SMEDES.

From J. W. GULICK, A. M., Prin Male Academy, Goldsboro', N. C.:
GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Games in particular. J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Boardon, perhaps others of your books."

From Dr. CLOSE, Prin. Durham Academy, N. C.:
DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSE.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work. M. L. LITTLE,
Prin. Pleasant Hill Seminary.

From Rev. S. IVEY, Prin Auburn Academy, N. C.:
AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.
STINCLON IVEY.

Prof. WM. A. OBRECHAM, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.:
WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Gamut's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most prim ary Geographies; but the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology as a Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Gamut, with much acceptance. G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1865.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Farnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the states.

From the Raleigh *Daily Progress*, Feb 20, 1865

NATIONAL SCHOOL READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1866.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. *Daily Herald*, 1866

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS asto ishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND ACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low, its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbanded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 327 new policies, more than any other Company, except the Mutual Life; received an income exceeding six millions dollars and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
